GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

Return of the Victors

NEW YORK, Aug 10—The steamer bearing the victorious Columbia College crew was sighted early this morning and soon afterwards reached the quarantine The health officer waited long for the expected reception committee of the Columbia alumni but they not making an appearance he steamed to the vessel with members of the press and there gave to the Henley victors their welcome After the health officer had passed the vessel she steamed for her dock Just off Governors island a steamer chartered by the alumni approached, those on board shouting the well known Columbia cry The crew were transferred to a little excursion steamer amid the cheers of their fellow passengers and proceeded to the city where they were vociferously welcomed by waiting Columbia men on the dock and an open carriage with two horses was in waiting to convey the crews to Delmonico's The horses were quickly taken out and ropes were attached to the carriage which were seized by a large party of Columbia men Two others, Boyd and Tompson took hold of the carriage pole as steersmen, Goodwin and Ridabock took a rear seat in the barouche, and Edson and Eldridge sat opposite The oars with which the crew achieved the victory at Henley, were also placed in the carriage with blades pointing upward, one of them decorated with an evergreen wreath A procession was then formed headed by the seventy-first regiment band and collegians carrying the Columbia flag Then followed the carriage drawn by two long lines of enthusiastic young men most of whom displayed the Columbia white and blue in badges, handkerchiefs or hat bands The reception committee walked close behind the carriage and then came a body of students and others marching four abreast Before the procession left the pier Alderman Biglin greeted the members of the crew on behalf of the board of aldermen, and tendered their congratulations Captain Goodwin arranged to confer with him next Monday in regard to a reception at the city hall When the procession started the officers and workmen on the dock gave hearty cheers which were responded to by the Columbia boys The line of march lay through West street Canal Broadway and Fifth avenue to Delmonico's Crowds of spectators were attracted along the route and the appearance of the victorious crew was everywhere greeted with enthusiasm

The Sand Lot Orator Among the Shoemakers.

NEW YORK, Aug 10—The *Herald's* Lynn (Mass) special says A large gathering of workmen collected around the Eastern railroad depot about the hour that the sand lot orator was expected to arrive. He came and the elements so mercilessly poured forth their wrath that it was decided not to hold a meeting till Monday night. The procession was formed at Crispin headquarters headed by a brass band, and at 8 o'clock the line of march taken up to the Sagamore house, where Kearney and the committee of reception were staying. Arrived there a halt was made and about 3,000 stood out there in the rain and the missionary from California made a short address from the balcony. After expressing his regrets that the clerk of the weather was not more propitious he said he wanted the workingmen of Lynn to take up the new battle cry of the Atlantic states— the lecherous bondholder and mortgage smasher must go." The battle cry of the Pacific was, the Chinese must go, and we want it said the missing link to be forged by the workingmen of the country belongs to you workingmen. This balcony from which I address you was built by workingmen, but blood sucking, lecherous thieves look on workingmen as beneath their notice, but they will rue the day they trampled on the workingmen, on the rights of American citizens. There is no such thing as freedom here. The bird of liberty is a dunghill rooster Freedom is a fraud This is a nice state of things in Massachusetts I heard from Gen Butler yesterday, [three cheers for Butler] that a man in order to vote here must know how to read and write. The best scholar and philosopher in Europe, who could not speak the English language, should he come here and spend time necessary to become a citizen would be excluded under this rule I heard also from Butler that the last legislature passed a law by which a man is deprived of his living by exercising his right to vote. Then why blame me for calling the bird of freedom a dunghill rooster and your freedom a fraud

There was the usual abuse of monopolies, followed by advice to pool their issues, and he said good night A reception was held in one of the parlors at the close of the meeting and many workingmen of Lynn were presented. Lynn is almost solid for Butler. It is the agreed back centre and champion city of the state for strikes. The meeting Monday night will be one of the largest which Kearney will address in Massachusetts

Question of Pacific Coast Freights.

NEW YORK Aug 10—Directors of the Pacific Mail Steamship Company considered to day the question of California freights The matter of new contract with the Union and Central Pacific roads was referred to President Babcock, with power to act The Union Pacific road has settled its accounts on freights under the old contract to July 1st only a small amount of money being paid over on account of steamships having been filled with freight The *Acapulco* had a freight list of $43 250 and *Crescent City* which sailed to day, carried 45 cabin passengers and a very large cargo of freight, the invoice for which called for $36 500 The new steamer *Clyde* is now on the docks and will be at once placed on the Aspinwall route The contract for passenger rates with the Union Pacific road has not been abandoned, as reported but is being faithfully kept up It was stated to-day by a Pacific Mail director that under the contract Pacific Mail passenger rates to San Francisco are $137, the same as charged by rail, in consideration of which the Union Pacific road pays $5 head money for every through passenger carried by rail for the month of June This amounted to $13 000 It was further stated that President Babcock will insist upon $10 head money and that the freight contract will probably be abandoned Capt Babcock and Sidney Dillon president of the Union Pacific road, have had one conference on the subject and will meet again on Monday

Ben Butler's Bray

BIDDEFORD (Me) Aug 10 I H Core greenback candidate for congress from this district, presided at a meeting in the City Hall to night of citizens of York county, and in a short speech introduced General Butler who spoke for two hours He said he came not to make a speech but to commune with the people on the public interests of the day He had left the old parties He belonged to the Democratic party till it attempted to destroy the union He was with the Republican party till it deserted its founders—the laboring men Capitalists now hold the Republican party hand and foot Hayes violated every pledge and betrayed the negroes of the south The effort of Grant's administration to strengthen the public credit was a swindle He reviewed the history of the greenback currency and claimed it should be made a legal tender for all debts public and private

A Mixed Criminal and Political Muddle.

BOSTON, Aug 10—Col J F Trentleton chief constable of South Carolina arrived at the executive chamber to day with a requisition for Hiram H Kempton A telegram from Gov Rice at Saratoga directs a full hearing The indictment upon which the requisition is based charges John G Patterson, Niles G Parker and Hiram H Kempton with conspiracy to bribe the South Carolina legislature Each side is well represented by counsel, for Kempton they say the matter will be fought at every point, that the case is purely political that the present state government is desirous of repudiating certain bonds issued in 1872, which have already been scaled down 50 per cent that Kempton is desired as a witness to attest the irregularities in their issue, in order that the state may repudiate the balance, and that he has refused to compromise the matter in accordance with negotiations which the state authorities have been making the past two months.

A One Sided Election.

MONTGOMERY, Ala, Aug 10—Wm H Forney has been re-nominated from the 7th congressional district About 80 000 votes were polled for the Democratic state ticket with no opposition. The legislature will be almost entirely Democratic

Shoe Manufacturers' Meeting--Strikers.

CHICAGO Aug 10—Boot and shoe manufacturers of this city held a meeting this afternoon to consider the shoemakers strike. Mr. Greenfelder acted as president. Ten firms all the manufacturers in the city, were represented The meeting was devoted to the proposition from the six consolidated Chinese importing companies of California to furnish 1,500 Chinamen half practical shoemakers and half green hands for three years at 75 cents a day per man The manufacturers agreed that they would make no further concessions to the strikers There are about 800 men in the strike They demand $12 per week. The manufacturers offer to pay $10 50, which they say is the most they can afford Further than this the manufacturers have offered no conciliation to the men, but on the contrary declare that they will take no steps to pacify them They are determined that the striking hands shall come back to work at the figures named, and that too by the first of next week or go without employment. To meet the latter emergency the manufacturers are conferring now with an agent from California and seriously meditate the employment of Chinese cheap labor The members of the meeting this afternoon were all agreed that the scheme was a good one but differed in opinion as to the price to be paid Some of them thought forty cents a day enough, and none were willing to pay more than sixty So the meeting adjourned without definite action to allow the secretary to confer with the agent regarding a reduction of the terms The plan to be pursued is the same as that of the great New England shoe manufacturers

A Five Mile Race

Discouragement in Umatilla

[Letter from Butler Creek to Pendleton Independent]

Three large sacks of clothing and various other articles have been found *cached* in the brush some four miles below the house they were taken from and within a mile of the camp of the Umatillas on this creek which is good proof that our Indians had a hand in the plundering The articles found belonged to Mrs Nelson and were taken after Mr Nelson and Luke Skelly were killed no doubt

There is a general feeling of uneasiness, and many are trying to arrange their business so they may take their families below

J M Hamer sold his farm which he held at $1 000 before the Indian outbreak for $300 and will move to Portland in a few days

J L Morrison sold his farm and is going where the friendly Indian will not molest him

We are all very sorry to see old settlers fleeing from the country they have worked so hard to build up in order to seek safety from a few hundred vagabond siwashes but if the government General Howard or Major Cornoyer can give no assurance of protection for them I am inclined to think that they are wise in giving up the country to the Indians We have heard a few that have lost about all they had by the Indians say they were going over and join the Umatillas and perhaps get some of the $3 000 donated by the government to the Indians and if not they could get their wigwams burned again which would be an improvement on their present situation

Gathering up Stock

From the Pendleton Independent

From Mr R Sargent who has just returned from Camas Prairie we learn the following There are now in the prairie [illegible] men looking for their sheep They have located their camp at the old Johnson ranch and will drive all the sheep in the valley to that point for the purpose of separating out the different brands There are at least 100 000 head scattered over a large extent of country and it will take a long time to get them together The loss of sheep will probably be light The only killing by the Indians was in Mr Sarford's band at the crossing of the North Fork of John Day river which will probably reach 300 or 400 head When the Indians came into the valley and saw thousands of sheep in every direction they probably thought they had too large a job on hand, and desisted from further slaughter

SCATTERED BANDS.

The usual end of an Indian War—A few Parties of Indians Surrendering, and others widely dispersed.

SILVER CITY Aug 10—Small parties of Indians are still occasionally seen in several places but it is evident the bands are broken up and hiding from the troops Some have surrendered at Malheur reservation and others are reported anxious to do so General Howard is supposed to have gone to Boise City The whole command is much worn with long marches Dust and heat have been very oppressive It is not known that any hostiles have yet crossed Snake river

An Official Report

The following telegram has been received by the assistant adjutant general at Vancouver —

BOISE CITY Aug 8—On the 6th inst the surrender of hostiles began Eighty five came to Malheur agency twenty eight of whom were men On the 7th the number was swelled to 100 including [illegible] men On this day two Indians left to induce Oitz to surrender promising to return in eight days The captives say that Oitz is west of Ironside mountain Forsyth reports Stein mountain country clear He captured one Indian No traces of Indians can now be found this side Snake river

A General Account of the Situation.

BOISE CITY Aug 11—Col Robbins chief of scouts arrived here last night with dispatches for Gen Howard from Forsyth's command having the command at Antelope Springs nine miles from Summit station on the Winnemucca road Forsyth's columns consists of seven companies of cavalry For the past ten days the command has been engaged in scouting From Stein's mountain signal fires were seen every night The object of the troops was to capture the Indians or drive them into the agency This has been done effectually Forsyth is now en route with his command to the Three Forks of Owyhee and thence through Bruneau valley to Snake river

Lieut A Heed of Capt Bernard's Company of Volunteers writes from the mountain country west of the Weiser under date of the 7th inst that there are many Indians scattered through these mountains The volunteers surprised one camp that morning capturing six horses and a lot of venison partially dried several buffalo robes and many other traps One squaw was captured but the bucks all fled This was on the summit of the mountain above the snow line Borland thinks that these Indians are probably Weisers and Nez Perces who will try to stay and hunt in the mountains until snow falls and then go to their reservations Captain Borland has just gone to ask Gen Howard for troops to assist in driving them out

Major Hancock, in command at Camp Howard near Mount Idaho telegraphs Gen Howard through Gen Wheaton that White Bird with part of his band are encamped in that vicinity White Bird is anxious to know what has been done with the Nez Perces prisoners who had been taken to Vancouver and those who had been detained at Lapwai The people are very much excited about him, and propose to arrest him Hancock counsels moderation and asks Wheaton for more troops Gen Howard advises that the 20 Nez Perce scouts who have been with him in the present campaign, and who have returned to Lapwai, be induced to arrest White Bird and turn him over to Hancock Gen Howard says that the scouts will be pleased to do this A hundred men under Capt Drum are already on the way to Mount Idaho through the Weiser country Gen Howard has also advised that Moses be induced to arrest the party of hostiles who crossed the Columbia river into that section and who are now causing trouble there Gen Howard further says that the troops on the Upper Columbia have not been withdrawn as has been supposed and that the danger is not so great as has been reported

The Silver City Maligner.

The dispatch that went to the press from Silver City dated the 5th inst saying that most of the officers and soldiers with Howard seemed to have no sympathy with him in his place and would gladly aid in demolishing the hostiles if permitted, is wholly false Upon reading this dispatch in the papers Gen Howard sent the following denial to Gen McDowell

BOISE CITY Aug 9th

To Assistant Adjutant General Military Division of the Pacific Newspaper publications calculated to mislead to the effect that I have checked operations against the hostiles that I differ from my officers with regard to their complete capture and punishment are utterly and wickedly false and come from a source known to be low malicious and mendacious HOWARD Comanding

The same Silver City reporter has sent to the press to day another mendacious report saying that it was rumored that Gen Howard had caused the arrest of Col Bernard When this reporter was told by the operator that the rumor was not true that he had communicated with Gen Howard on the subject, nevertheless the reporter said send it Gen Howard claims for Col Bernard that he is as gallant an officer as there is in the field He has always given him command of a column when it was possible to do so and has never checked him, but rendered him every possible aid in the pursuit of the enemy

Egbert Finds and Fights some Hostiles

BOISE CITY, Aug 11—Maj Egbert, with his command of one hundred and sixty infantry is now encamped at Cold Springs station, on the overland road 65 miles S E of this place On Friday last he sent out a detachment of scouts in three directions Those under Capt Dows consisting of 20 mounted men including 6 regular scouts struck a band of 50 Indians or more on an island in Bennett creek surrounded by willows which proved to be a very strong position 10 miles south of the overland road This was about an hour before sunset They skirmished with the Indians for over two hours but found it impossible to dislodge them Private King of company K was slightly wounded It is not known that the Indians sustained any casualties except the loss of four horses as they fought under cover They appeared to be 100 armed men, but made bad shots at a range of only 300 yards A courier was sent to Major Egbert for reinforcements who came with 60 more men but did not arrive until after dark After viewing the situation Major Egbert ordered a night charge but the Indians had fled in the direction of the mountains south of Big Camas prairie Couriers were immediately sent to inform Colonels Green and Sumner then on Camas prairie of the direction the Indians had taken On the day before Major Egbert's scouts had picked up 15 Indian horses Another band of hostiles stole eight horses from a field belonging to Commodore Jackson within a mile of Rattle Snake station Jackson and five others are now following them Egbert thinks that these Indians are the rear guard of the Indians now passing through Big Camas Prairie

A notice in the *Government Gazette* states that whereas, by an order in council dated the 23d day of May, 1878, of the honorable the privy council of Canada, it has been decided that Burrard Inlet will, in all probability, be adopted as the western terminus of the Canadian Pacific railway, it is deemed advisable that a strip of land should be reserved, for conveyance to the Dominion Government, along said line of railway beginning at English Bay on Burrard Inlet and following the Fraser river to Lytton thence by the valley of the river Thompson to Kamloops thence up the valley of the north Thompson passing near the lakes Albreda and Cranberry to Tete Jaune Cache, thence up the valley of the Fraser river to the summit of Yellow Head or boundary between British Columbia and the Northwest territories

Crimes against Women

(Cleveland Leader)

There is after all a healthy restraint in the summary code of the southern states which makes death the penalty for assault upon the chastity of defenseless woman That system leads to assassinations and lynchings but the result is that women are protected better than in the states where stricter respect for law prevails It would be a most timely and wholesome achievement if the authors of the Utica outrage could be caught and used as samples of the utmost that the law can do in such cases

The Olympia *Standard* says the receipts of the Olympia Tenino railroad have been from $40 to $50 per day ever since it was opened to business and as the expenses of operation do not exceed $12 per day a very fair margin is left for profit

Tacoma, says the *Herald*, "has the disposition to become the metropolis of the northern Pacific coast" In this disposition Tacoma is a quarter of a century or more behind some forty other places, including Pacific City, Steilacoom and Brown's Point.

A large company of emigrants follow Gen. Tilton across the plains. There are five trains, with twenty three, twenty five, forty and fifty three wagons respectively Two hundred and fifty wagons drove into Laramie City five days after the arrival of the general's train at that point Most of these people will settle in Washington, though a few are bound for Oregon

On Wednesday afternoon at Olympia Thos. W Mack and Lulu Dean, children of ten years, while playing on a boom of logs fell into the bay and were drowned The little girl fell in first, and the boy in attempting to rescue her was drawn in also, and both perished The children were cousins, and the one last named was an orphan, her mother and elder sister having been killed by an explosion of nitro glycerine at Virginia City in 1873

Marysville is the name of a town laid off at Priests Point near the mouth of the Snohomish, and already has a postoffice, store and hotel, and a schoolhouse is in process of building Rev Mr Bainfield and family, from California, have taken up a claim and are improving it some There are at least 20,000 acres of as good tide marsh lands as any in the territory, still open to pre emption at the mouth of the Snohomish, and 10,000 acres of good river bottom lands in the immediate neighborhood open to settlement.

To be an American "is greater than a king" Of course But we notice that congress doesn't vote every one of us young men of the republic $50,000 every time we get married If Uncle Sam would do as well by his nephews as the British parliament has just done by Prince Arthur there wouldn't be so many unmarried girls on this continent.

NO NEW THING

Men are apt to talk about the great changes produced by time but it is surprising how sure we are to find every time that there is really no new thing Changes there are indeed in matters of a material sort and in man's outward circumstances but man himself is the same from generation to generation There is human nature in him always Kearney is bellowing in Boston and thoughtless people are rushing to hear him as if he were the prophet of a new revelation Parkman in his recent *North American* essay said that a feature of the present time is that a large class of men want equality more than they want liberty, and equality is an impossible thing But is there anything new in this desire? There is no such thing as equality of condition among men and cannot possibly be The idea that somehow it can be created and maintained by law is the most foolish and unattainable thing in the world yet this is the underlying idea of the Kearney agitation and it sends men to hear his rant and applaud his ribald invective But even in our country this can be no new thing, else Washington Irving in one of his early sketches, written at the beginning of the century, would not have found material for that admirable description of a similar agitation and its agents The "Letter from Mustapha Rub a-Dub Keli Khan to Asem Bachem, Principal Slave Driver to His Highness the Bashaw of Tripoli," holds up a mirror to the present "agitation," or at least some prominent parts of it. For a feature or two it is worth while to take a peep "Perhaps thou wilt ask," he says, 'what all this dispute is about One would suppose that all being free and equal they would harmonize as brothers, children of the same parent and heirs of the same inheritance Equality, Asem, is one of the most consummate scoundrels that ever crept from the brain of a political juggler—a fellow who thrusts his hand into the pocket of honest industry or enterprising talent, and squanders their hard earned profits on profligate idleness or indolent stupidity There will always be inequality among mankind so long as a portion of it is enlightened and industrious, and the rest idle and ignorant. The one will acquire a large share of wealth and its attendant comforts refinements and luxuries of life, and the influence and power which those will always possess who have the greatest ability of ministering to the necessities of their fellow creatures These advantage will excite envy, and envy as inevitably begets ill-will—hence arises that eternal warfare which the lower orders of society are waging against those who have raised themselves by their own merits, or have been raised by the merits of their ancestors, above the common level" This is so apposite that there is no need of amplification. It typifies the present "agitation" completely Kearny has had many predecessors and there have been heroes before Butler.

A JOURNALISTIC CONFESSION

In the Chicago *Times* of recent date we find one of the most recklessly honest articles we have ever seen in any newspaper Ex Governor Palmer of Illinois some years ago became a Democrat, and because he is a hard money man the Chicago *Times* has been criticising him unmercifully for training with the paper money lunatics, though in a locality where the Democrats are nearly all of this class. Palmer conducts the *State Register*, published at Springfield. After several rejoinders to the *Times* through the columns of his own paper he transferred the controversy to Chicago, publishing in the *Tribune* of that city a card in which he sarcastically referred to the fact that the *Times* itself was enthusiastic for "greenbacks for bonds" when Pendleton first broached that idea. This would have been a crusher to most papers and they would either try to wriggle out of the charge or affect to treat it with lofty contempt. The *Times* does neither It meets it thus, putting its reply in the shape of an imaginary interview

John I Palmer, Interlocutor—As the *Times* was an earnest advocate of the Pendletonism of 1868, will it please define exactly what doctrine is meant by that phrase?

The Times, respondent—Certainly, sir, the doctrine expressed by that phrase is the doctrine of repudiation.

Mr. Palmer—In 1868 the *Times* was an earnest advocate and supporter of Mr. Pendleton and his policy; but the *Times* has probably forgotten this fact.

The *Times*—No it hasn't. The fact mentioned by Mr Palmer is as fresh and distinct in the memory of the *Times* as it is in the memory of Mr Palmer or any other man.

Mr Palmer—Can the *Times* explain how it came to support a "plan" then, it denounces so violently now?

The Times—Certainly The *Times* was then mainly a party organ; as an organ of the party it blindly called the Democratic party Mr Pendleton had invented a new fiscal creed for the party idolaters of that name, and it was a scheme of repudiation nothing more nor less. That scheme was adopted by the Bourbon party as its own gospel. Being an "organ" of that sect, the *Times* was a zealous minister of its gospel of repudiation.

And then with charming frankness the *Times* proceeds to draw for the benefit of Gen Palmer and the public in general, the following moral

From this fact Mr Palmer ought to perceive the evil consequences of being a party organ. The party organ is a mouthpiece of an irresponsible combination of mercenary self seeking office-seekers and political hucksters. Bound to follow the directions of "the machine" it cannot follow the guidance of truth, nor of honest convictions of truth. Its deliverances are worthless for the guidance of honest intention—and worse than worthless, for they are generally given for purposes not of instruction but of deception. It is a burlesque upon a free press. It is a travestie upon respectable journalism. It is a humbug and a fraud.

Here is the point to this incident, and it is for this purpose we have reproduced it Journalism like that described by the *Times* is a fraud, beyond question. Want of sincerity must of necessity characterize the newspaper whose opinions are but those of political managers and workers outside its own office. And this is unfortunately true of all journals known as strict partisan papers, and it is especially true of those supported by contributions of party officials and politicians to do their work.

It is not many years since it was thought that the forests of Michigan were inexhaustible But the rapidity with which the pine region of that state is being denuded now convinces lumbermen of their error Fine lands that are accessible have advanced largely in value, and the financial disorders of the last few years have had a tendency to concentrate the ownership of them in the hands of the wealthiest men An instance is given of operations in the Saginaw district. In that district in 1863 there were sixty one sawmills, having a capacity of 150 000 000 feet annually Now there are over 300 mills many of them on a very extensive scale having a capacity of not less than a thousand million feet annually In 1877 the Saginaw mills cut 640,000,000 feet of lumber There is no probability that in the present year the cut will exceed 250 000 000 or 300 000 000 feet. It follows that fully half the mills in the valley must remain idle during 1878 In 1863 the product was 133,500 000 feet. The product has increased steadily down to the present time It was nearly 500 000 000 feet in 1868 and exceeded 600 000 000 in 1872 The time is not distant when lumber in quantities like this will be cut in Western Oregon and Washington largely to supply the great open country east of the Cascade range

---

In addition to the injury to farms in the Sacramento valley resulting from hydraulic mining on the mountain tributaries of the Sacramento river there is another consequence which is producing disastrous effects The enormous quantities of detritus carried down from the mountains are raising the bed of the river so that a moderate rain fall produces an overflow This is the explanation of the flood in the lower valley of the Sacramento last winter The rainfall was not heavy enough to have caused such an overflow had not the bed of the river been raised so greatly above its former level by hydraulic mining The city of Sacramento is obliged to go to further expense in raising its levees, and its common council recently determined to borrow a large sum for that purpose A sentiment against permitting the continuance of this method of mining appears to be growing in California It is doubtful if all the gold now taken from the mines from year to year would pay the permanent damages to the towns and farms and navigable streams of the valley resulting directly from this system of mining Large numbers of the best farms have been buried under barren sand to a depth ranging from five to twenty feet, and the bed of the river is so filled up that every little freshet sends it over its banks and devastates the farms and towns far and near

---

The more intelligent journals all readily see that England's real gains through the diplomatic congress are small, and in fact are likely to prove no gains at all The New York *Times* says "The real tug of war will come when the glitter of popularity now surrounding Lord Beaconsfield shall have faded and when the consequences of his 'master stroke' shall begin to be felt in Russian intrigues Turkish riots, vast additional expenses with no adequate result and other troubles of the kind.' The *Herald* says 'the liberals, on the scheme they have outlined, are sure to get the ear of the people eventually as against the frenzy of the hour which must necessarily soon pass away" It adds that "there is sure to be a reaction as consequences develop by which the opposition will profit

These words addressed by the Boston *Herald* to workingmen of that city who are listening with eagerness to the delusive blather of Kearney and Butler, are words of truth and soberness 'A redundant currency increases the relative power of capital over labor, and when a currency represents no real value—is based upon nothing actual —a promise never to be fulfilled—the workingman, who has only his labor to sell, is completely at the mercy of the men who, having the capital, control the currency. In the long run, an irredeemable currency is bad for both capital and labor, as our experience shows clearly enough, but its first and worst effects are always felt by labor"

The Malheur Indians, according to Agent Rinehart's statement, revolted and went on the war path because they don't want to work Evidently they are a very proper lot to be organized into a Kearney labor party Now that they are returning to the reservation, this method ought to be introduced among them at once

The land sales by the Northern Pacific Railroad Company in Northern Minnesota and Eastern Dakota during June were 95,580 acres, for the aggregate price of $418,168 The total sales by the company for the six months of 1878 ending June 31st, were 320 987, for $1,468,053 an average of $4 55 per acre

Senator Mitchell and Col. Chapman are coming home by steamer. We have heard some surprise expressed that they did not "deadhead" themselves home over the Columbus River and Salt Lick Railroad

Every department of industry suffers great depression Even our enthusiastic knights of labor haven't held a meeting since the June election.

"WHAT CAME OF IT."

This is the title of a story from the pen of the late Mrs H V Stitzel, just published here The book is written with strong feeling and with good command of language, and the story itself is sufficiently attractive to win the attention of most persons who read a novel for the story alone It would be easy to pick faults, great and small in this book and we may say of it, as Keats said of one of his own efforts, that there is that in it which denotes inexperience, immaturity and a feverish attempt, rather than a deed accomplished Some rather morbid conditions of mind are manifested in it, its tone is quite sombre throughout, and we are sure we should have read the book with more pleasure had the author never learned the little French mostly exclamatory, which it contains But it must be said of the book that it indicates some reading on the part of its author, considerable reflection, deep earnestness and a pure mind The author had many friends in this community who will receive it with appreciation There are passages in it which exhibit no small power, and there are good touches of description The opening chapter begins in this pleasant way

> At some distance from the public road and but a few miles from the metropolis of British America, there was in the days through which this narrative extends a little white cottage, over whose front porch a rose tree and honeysuckle were striving for the victory of space challenging a l miration by the sweet perfumes they breathed through their dancing leaves among which the sunbeams played at hide-and-seek with the cradled darlings of the fond mother birds

This is almost redolent of the scene it describes Take another passage, in a very different vein

> A cankering grief in a man is ordinarily attributed to business cares the same in a woman to some physical derangement A face may or may not, reflect the disturbance of the heart Then we pay so little attention to these things We never seem to know, or we cease to remember that every life has its own crosses—every soul its special burdens. As we weep by the graves of loved ones friends group about us and sustain us with their sympathy but to the secret sepulchre of the heart we steal in silence and alone Optimism is an amiable mood of the mind when entered in a hazy impersonal way but is nauseous enough sometimes, when individually applied The broad humor of Artemus Ward's readiness to sacrifice all his wife's relatives in the war, has the flavor of pungent truth That Job's friends bore his eruptive afflictions with neighborly equanimity there can be no doubt There is really little vicarious suffering in the world notwithstanding the divine example. We can sit bloom thorough ly at [illegible] with the sufferings of others It is a [illegible] that it [illegible] [illegible] break with one mighty throb [illegible] sympathetic pain and [illegible] would be [illegible]

A very graceful and appropriate introduction furnished by Mr Sam L Simpson under whose eye the book has been carried through the press

Handsome Exculpation

Several papers in Washington territory have recently made bitter attacks upon Mr H G Struve formerly secretary of the territory but now a private citizen and leading member of the bar The Seattle *Dispatch* notices these attacks and exculpates Mr Struve in this pleasing manner

Mr Struve is arraigned solely on matters long since past fully understood and so far as any blame was attached to Mr Struve have in the minds of all honest men been amply condoned by an honorable career and blameless life from the time he attained the years of manhood to the present time and never involved any moral turpitude The charge upon which the greatest stress is laid is that Mr Struve is a deserter We have before explained the circumstances connected with this charge Mr Struve is a German by birth at the age of 17 he landed in New York fresh from a German university with the education and breeding of a gentleman and failing to obtain other employment he enlisted in the army His company was soon after ordered to California where the young German boy was assigned to menial service in a hospital at which degradation his gentle instincts and refined culture revolted and he took the risk of desertion More than twenty years thereafter when the deserter had by his own unaided efforts achieved a leading position at the bar and by his talent and integrity commanded the suffrages of his fellow citizens for several of the highest offices within their gift envy of his popularity and position instigated his enemies to report him to the war department as a deserter from which after full investigation he received an honorable discharge in consideration of his subsequent honorable and useful life as a citizen and none but a coward and a sneak will now taunt him with a youthful escapade which has been so nobly condoned

MONDAY MORNING AUGUST 12 1878

CITY.

A Row and its Results—Two ranchmen—Littlepage and Allison—who live among the foothills of the Cascade mountains not far from Rooster Rock got into a neighborly squabble a few days ago, in which each fired the contents of a fowling piece at the other but with faulty and hurtless aim Allison it appears was the aggressor and with resentment provoked by injury and whetted by defeat Littlepage came to this city and entered suit of prosecution against him in Judge Bybee's court Constable Dan Sprague was commissioned to the toilsome and dangerous duty of arresting the offender He went by horse to his home in the mountains and though warned that his customer was a "dangerous man" arrested and brought him to this city The case was examined in Judge Bybee's court on Saturday afternoon, and Allison was committed to the county jail where he will be confined unless he can procure bonds in the sum of $500, until the next session of the grand jury when the case will be considered

The Sixth Street Improvement—Serious complaints are being made by property owners against the so called improvement of Sixth street. That portion of the street below Washington is being filled up with loose earth and rubbish from one to two feet deep which the winter rains will inevitably convert into an impassable sea of mud In that portion between Stark and Washington the stench from the refuse matter is anything but pleasant. Aside from this, it is claimed that it is not only expensive but useless as the dirt will have to be removed whenever the street is really improved by macadamizing or otherwise In a matter involving such a large outlay of money careful judgment should be exercised with reference to the utility and permanence of the improvements to be made

Base Ballists Victorious—A cricket match game played at East Portland on Saturday afternoon by opposing "elevens" composed of base ball players and cricketers resulted in a score of 51 to 64 runs, the former scoring the higher number The cricketers were badly beaten at their own game but it is but fair to state that the victorious side "borrowed" several good players to aid them The position in which the ball players showed superior skill was in fielding Not even long continued practice at his own game gives the cricketer such skill in the field as a thorough training in a good base ball club. Good feeling prevailed throughout Saturday's game, and the sport was thoroughly enjoyed by the players and a goodly number of spectators

A Burglar who didn't Burgle.—On Saturday night an individual of vicious mien and probably of criminal intent, entered the premises of Mr. Geo S H Jackson at the corner of Third and Caruthers streets, and was skulking around hunting for means of entrance to the house when a vigilant cur, whose business it is to guard the said premises from intrusion, became aware of his presence and "went for him" ferociously. Mr burglar concluded to "don't" and got from that place with dispatch Mr Jackson was aroused by the noise of the retreat, but appeared just too late to claim a share of the spoils, which consisted of a fragment of coat tail, badly mangled, much soiled by wear and considerably worse for tear

Indecent Exposure—Large companies of boys and young men aid the forces of their natures in contending against the discomforts of the present "hot spell," by bathing in the Willamette river, north of Weidler's mill Sometimes while river steamers are passing these scalawags post themselves in prominent view and display their naked persons with wanton shamelessness It is true, boys, that the police have not the power of making arrests outside of the city limits, but there is a statutory law against indecent exposure, under which your conduct is liable to severe punishment.

Chinese Observances.—Yesterday was a sacred day according to the religion of the Chinese. Many hundreds of that race visited Lone Fir cemetery, where some of their dead fellow-countrymen are temporarily buried, and performed heathen incantations and ceremonies over the graves. According to a national custom and behest of their faith, they carried over a large number of delicately baked whole hogs and left them for the gods to feast upon. The "gods"—of that species which usually occupy the gallery in the theater—will probably do so

Moonlight Excursion—The members of the St. Andrew's society and their friends will go on a moonlight excursion to Vancouver to-morrow night. The steamboat *Willamette Chief* and the barge *Autocrat* have been chartered and will leave the foot of Washington street at eight o'clock, returning several hours later. That the Northwestern band has been engaged is a guarantee of good music, and that Prof Parrish will have charge of the dancing is another assurance of fun Tickets for gentlemen $1, and but half that sum for ladies.

The Dredge—The damage done to the government dredge by collision with the steamship *Oregon* on Friday at St Helens will cause a delay of about one week in the work of excavating the channel at that place Orders have been given from the U S engineer's office in this city to prosecute the work of repair energetically, night and day so that no more time than absolutely necessary shall be lost. The range lights at St Helens will be changed early this week from their present position to the line of deepest water

Again at Liberty.—M J Walton the long-suffering and oft bailed, is again at liberty. He was committed to the county jail several days ago and, after spending a day or two behind the bars, was released on the bonds of members of his family In a short time they rued the bargain and withdrawing their guarantee Walton was again incarcerated His people bailed him out again on Saturday It is to be hoped that they will make the arrangement final one way or the other

Sea View—This is the name given by Mr J L Stout to his place on the weather beach three miles north of Ilwaco It is a fine resort for those who desire a place by the sounding sea; the beach is the best for bathing on the coast the fishing advantages are excellent and the camping place superb wood water and the shade being convenient and abundant. Mr Stout furnishes milk butter vegetables, etc at very reasonable rates His place is destined to become very popular as a summer resort

More Small Business Houses—A row of low wooden buildings are being put up on the block just south of the Clarendon hotel The class of buildings which have been erected on North First street during the past year is a real misfortune to that part of the city They are not large enough for the purposes of important business, and by their presence prohibit the erection of more substantial and roomy structures, thus driving business to other quarters

Compliments Received—Capt B. P Collins and Miss Grace G Beniteau were married last evening at the residence of Mr G F Collins by Rev W C Chattin The groom is as pleasant and genial a gentleman as the city affords and the bride is a young lady of rare culture and refinement We wish them a long life of prosperity and happiness Compliments expressed in several bottles of the best brand of champagne received

Sawmill Wanted—Messrs [illegible] & [illegible] advertise under "new to day" that they will give rare inducements to aid the establishment of a sawmill at Beaverton in Washington on the line of the O C R R The town is backed by a rich and extensive agricultural country and an enterprise of the kind desired would probably yield a handsome profit

Columbia River Bar Survey—A survey of the bar at the mouth of the Columbia river will be begun some time during the present week The work will be done thoroughly, and will be in progress from six weeks to two months

Portland Seamen's Friend Society—The regular Sabbath services yesterday were held on board the ship *Herbert Black* Capt Treat at 2 P M Several shipmasters and their estimable wives were present and contributed greatly to the interest of the occasion There were also several beautiful children belonging to the shipmasters present their names occasionally being the locality of their nativity One beautiful boy of whom any happy and honored mother might well be proud, answered to the name of Sydney Treat His birth place was Sydney New South Wales Little Miss Nellie Pacific Noyes is another member of the nautical households represented yesterday her natal hour was ushered in on the broad Pacific ocean It is one of the interesting features of these meetings held by Chaplain Stubbs that all nationalities are represented Every accommodation and convenience are afforded by these gentlemanly shipmasters Several persons participated yesterday after the chaplain closed his address and we believe much good is being accomplished by these services

Sunday Afternoon Meeting at the Y M C A—More than the usual number were present and were highly interested in the remarks of Rev Father Chiniquy He read the 10th chapter of St John making a three fourths hours discourse thereon His remarks were made in fervent simplicity and listened to with rapt attention His theme was Jesus our Friend Father Chiniquy was for many years a Roman Catholic priest and since his conversion, more than 20 years ago, he has been the means of the conversion of 24 000 of his countrymen (French Canadians) to the Protestant faith A hearty speech was made by another man some 20 years a convert from the same faith and forcible remarks by a sailor and also by others Throughout the meeting was interesting and profitable COM

Father Chiniquy—Last evening a large meeting assembled in the Presbyterian church to hear a discourse by the gentleman above mentioned Great curiosity was felt to hear him because after having been twenty five years a Catholic priest he was converted to the Protestant faith, in which he has been for years an earnest worker He seems to be deeply and tenderly interested in the religious welfare especially of his Canadian brethren of the Catholic faith. His address last evening was delivered with great earnestness tenderness and with devout reverence At some of the statements made by him the audience was manifestly affected with amazement He is to be present on the 25th of this month and publicly address our citizens His subject is Why I left the Church of Rome

The Albany Excursion—The excursion from this city to Albany was a grand success The train well filled with pleasure seekers, left this city at an early hour and gathered passengers from each station on the route The affair became a hilarious carnival of pleasure and the hours at Albany passed swiftly and joyfully away The returning train did not reach this city until a very late hour

Reception—The citizens of Portland are invited by a card, published in another column to visit and inspect the barque *Belle of Oregon*, Merriman, Master, between 9 A M and 8 30 P M to-morrow The vessel lies at Flanders' dock at the foot of C street The pleasure of seeing her will amply repay the trouble of a visit, and we assure all a cordial welcome

Mr Moffett's Remains—The remains of Mr Walter Moffett arrived at San Francisco from Honolulu on last Thursday and were placed on board the steamship *Elder* which left there on Saturday for this city The deceased was prominently connected with the Independent Order of Odd Fellows, and his funeral will probably be conducted by that order

Spiritualistic Seance—Prof Stanley and Miss Richmond's spiritualistic seance took place at New Market Theater last evening The house was filled and the entertainment was satisfactory

U. S Circuit Court—Judge Deady will announce the decisions this morning in this court in Kamm v Stark and The U S v. Young et al

THE OREGON CITY WOOLEN MILLS.

It gives us pleasure to again call the attention of the trade to one of the "solid" institutions of our state We refer to the Oregon City Woolen Mills, than, which there is no manufacturing establishment in Oregon of more material benefit to our people, and none in which our citizens should take more pride. Home enterprise deserves encouragement. The reputation of the cassimeres flannels blankets, etc, made at these mills is too well known to require special mention The introduction of several new sets of the latest and most improved machinery will now enable them to make still better goods at lower rates than heretofore Their agents in this city Messrs Jacobs Bros & Co, have now on hand in their extensive warerooms a full assortment of piece goods blankets, underwear etc, which they are prepared to sell to the trade at less than Eastern or California rates They call special attention to a new grade of blankets, and blanket overcoats and ulsters, manufactured expecially for "east of the mountains"

PERSONAL.

Mr W Lair Hill, now a resident of The Dalles is in the city

Hon E C Bradshaw, of Yamhill county is at the Occidental Hotel

Mr Al Zieber, the genial proprietor of the Clarendon Hotel, is at Salem.

Mr Charles Holder a young gentleman who was at one time well known in Portland and along the line of the O & C R R is now engaged in theological studies in the Massachusetts Institute of the Presbyterian church He is said to be a man of good abilities and promise

A PLAIN ISSUE.

A Card to the Public.

From October 7 1876—fourteen days before the close of the Centennial exhibition—when all the machinery for investigation was at hand to this day Weber has published the following figures of the judges on pianos—given to him then and there

ORIGINAL FIGURES

WEBER.

	Bristow	Kupka	Oliver	Schiedmayer
Tone	6	6	6	6
Equality	6	6	6	6
Quality	6	6	6	6
Touch	6	6	6	5
	24	24	24	23—95

Total—95 Out of a possible 96

Now, Messrs Steinway publish fourteen months after the *close* of the Centennial a different set of figures on grand Piano etc They admit publicly that while *all* the rest of the piano manufacturers have quietly attended to their business they have traveled thousands of miles made two ocean voyages and carried on an immense correspondence covering thirteen months, persuading confusing manipulating the judges with a slightly different result

If Messrs Steinway or their agent here will prove that the above are not the correct *original* figures as handed in by the judges before the close of the Exhibition we will give to the poor of Portland our check for $500, Also if Messrs Steinway or their agents at Salem, Albany The Dalles or Walla Walla will prove that their original figures were not 91 out of a possible 96 which is four less than Weber received we will give to the poor of each of the above cities our check for $500

The fact of the matter is, the Weber piano has become by far too popular to suit the interest of that competing firm and they now perceive that their former prestige is fading fast before the growing popularity of Mr Weber and every possible means is being resorted to in order to crush him

Finally we would add that while it is unsafe to trust an unscrupulous concern like that of Messrs Steinway whose questionable practices and manipulations at exhibitions have become notorious and whom we believe are capable of doing any thing except sticking to the truth yet we still have so much faith in the power of truth that we are loth to believe that even they would perjure themselves and dare to come forward and swear that Weber's figures, 95 as published throughout the world before the close of the exhibition are wrong

Does any *sane* man or woman believe it possible that Messrs Steinway would wait thirteen months after the *close* of the Centennial to correct Weber's statement of figures, when it could have been done while the commission itself was in Philadelphia in session in thirteen hours, or surely in thirteen days NEVER

Weber's Award signed by all the Judges reads as follows

"For sympathetic pure and rich tone combined with greatest power as shown in their styles for Grand Square and Upright Pianos which show intelligence and solidity in construction a pliant and easy touch which at the same time answers promptly to its requirements together with excellence of workmanship"

The above Diploma signed by every member of the Commission and Judges on Pianos can be seen at Weber's warerooms corner Fifth Avenue and 16th street, New York at any time

Notwithstanding the desperate effort which is being made to injure the reputation of the only rival they are afraid of the Weber Piano will still continue to be the favorite with the public in the concert room and the parlor

MONUMENTAL MINE.

Late reports from this mine received at the office of the company confirm the high expectations of its first developments.

Work, night and day for the past eighteen months, has been prosecuted until the fact is established that Granite creek possesses a silver mine of extraordinary richness and inexhaustible extent

Drifts on ledge No 13 or Monumental are now in 120 feet off of the tunnel 300 feet from the surface and the indications are of increased width of vein and quality of ore as the work progresses On this ledge an upraise is now in 110 feet having 60 feet further to go to connect with the shaft sunk from the surface which will ventilate and drain the mine The ore now on the dump is in excess of 200 tons, and will, at a low estimate mill $50 000 The tunnel is still being driven ahead with sure indications of another ledge within a few feet

When it is considered that the amount of ore extracted is only a prospect and merely opening of one ledge for ventilation the quantity and value of the ore yet attainable can only be estimated by hundreds of thousands As the work has now reached that stage when machinery and appliances for the reduction of the ore are necessary Mr C A Miller general manager of the company, left on the last steamer for San Francisco for the purpose of getting estimates for the necessary machinery and in all probability within the next few months there will be added to the exports from Oregon *silver bricks from the Monumental mine*

BEAUTY:
OR, THE
Secret of a Fair Face.
An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate, possesses that basis and starting point of real beauty—a pure and clear complexion. What nature has thus denied, art must be called upon to furnish. It can be done, it is done daily Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion. It conceals all natural blemishes in the most surprising and effective manner It removes all roughness, eruptions, redness, blotches, freckles, and tan with magical power. It drives away all evidences of fatigue and excitement It makes a plain face beautiful. It gives the complexion a [illegible] appear graceful, makes the neck, face [illegible] [illegible] and plump [illegible] [illegible] change [illegible] [illegible] rustic maiden into a cultivated city belle. The Magnolia Balm conceals all mishaps and conceals every drawback to beauty, and while its effects are harmless as water [illegible] detect its use. Ladies the closest observer cannot detect its use. Ladies who want to make themselves attractive can make an absolute certainty of it by using Hagan's Magnolia Balm and we know of no other way It is the cheapest preparation in the world, all things considered, and may be had at any drug store

SUPPORTING A ROYAL FAMILY

(From the New York World July 26.)

Sir Charles Dilke has recently made his promised motion concerning the proposal for a grant to Prince Arthur on the occasion of his marriage. Sir Charles is [illegible] exploiting this subject for the first time as many years ago he made a very interesting [illegible] he sided slaughter on the [illegible] of the crown. On that occasion if we remember rightly he was about as alone as Athanasius in the minority and beaten even more disastrously than by the overwhelming [illegible] 330 to [illegible] which he encountered [illegible]. The subject, however, is an interesting one if only on account of the amount of money involved. As the *Court Circular* just received says: The total amount paid by the nation as allowances to the queen's children amounts to £131 000 a year. Since their royal highnesses happily came of age the nation has contributed upwards of £1 000 000 for their maintenance.

Beginning with the queen—the late prince consort by the way had an income of £30 000 a year granted by England—we find that her majesty has an annual allowance for the support of her household and of the honor and dignity of the crown of £385 000 appropriated. This allowance is however limited in a prescribed form. Sixty thousand pounds are paid into the privy purse £231 260 are applied to the payment of salaries of the royal household £14 240 for retiring allowances and pensions to servants £13 200 for royal bounty alms and special services the unappropriated surplus of £36 300 being applied if necessary in aid of the general expenditure of the court. In addition to this the queen receives the revenues of the Duchy of Lancaster which have averaged after all deductions £35 788 a year for the last decade amounting now to £43 000 per annum the sum increasing steadily. Her majesty's private means are very large but her income therefrom is not known and if it were, would not figure in this estimate.

The Prince of Wales has £40 000 a year exclusive of the revenues of the Duchy of Cornwall. In 1840 these averaged about £13 000 a year but under his father's prudent management they have increased vastly. In 1876 the prince's net income from this source was £70 875 or rather more than £15 000 in increase of the net revenue for 1867. It is no secret that the heir of the throne is seriously troubled with debts—debts too, which he has been compelled to incur through the duty of entertaining devolved upon him during the Queen's seclusion. The Princess of Wales has an allowance of £10 000 a year to be trebled in the event of her widowhood.

Since he attained his majority in 1866 the Duke of Edinburgh has had an allowance of £15 000 a further allowance of £10 000 a year being made in 1874 at his marriage. Should she survive him the duchess will have an income of £6 000. The Duke of Connaught has had £15 000 a year since he came of age in 1871 this allowance it is now proposed to increase by £10 000. When in due course he succeeds the Duke of Cambridge as commander in chief, an office for which he is in training he will have a largely augmented income especially if he holds an equal plurality of coloneleies. Prince Leopold, who came of age in 1874 has £15 000 a year—so the "Peerage" asserts, though the "Statesman's Year Book" makes the charge for him upon the consolidated fund only £8 000 a year. His unmarried sister, the frequently reported to be engaged Princess Beatrice, has as yet no allowance, though in due course she will receive her marriage portion. The princess royal, the future empress of Germany, has £8 000 a year for life in addition to the dower of £40 000 granted her at her marriage. The Princess Alice of Hesse, the Princess Helena (wife of Prince Christian) and the Princess Louise each received £30 000 dower and an annual allowance of £6 000 for life on the occasion of their espousals.

Besides the Queen's children there are other members of the royal family in receipt of direct allowances from the people. The Duke of Cambridge has an annuity of £12 000 a year his mother the Dowager Dutchess has £6,000 a year, and his two sisters, the Princess Mary of Teck and the Grand Duchess of Mecklenburg Strelitz are allowed respectively £5,000 and £3 000 a year.

Such is the cost to England of her royal family, excluding the salaries and allowances to which such of its members as hold positions in the public service may be entitled.

The Hon Charles B Hayes of Alabama and member of congress from that state, wants to shoot an editor for simply calling him a liar. Gracious! Is the liberty of the press in that state to be restricted to the narrow limit of being polite to every fellow that happens to worm his way into congress?

Salmon—Sales of outside brands made at $1 17½ @1 20. Columbia river standard brands are irregularly firm at $2 55, 2⅝s firm at $2 65 for standard brands.

Boston Wool Market.

BOSTON Aug 10.—The wool transactions show a considerable falling off from previous weeks and the market is comparatively quiet especially for clothing fleeces. It is admitted that wool is low but manufacturers claim even at present low prices it is difficult to place goods at a profit. Hence their indifference about stocking up with clothing wool to any extent. The feeling for combing and delaine fleeces is the reverse. Every available lot is readily taken, and all this grade will be wanted. There is no market change in Ohio, Pennsylvania or Michigan fleeces. Since new wool began to come forward freely there has been no active demand and if stocks were forced upon the market some concession would have to be made. California wools still attract considerable attention and business is fair considering the falling off in other kinds. Transactions 348 000 pounds at 18@ 9½ for spring 16@ 0c for fall.

[illegible] PAUL M. BRENAN.

His Wonderful Success
IN THE TREATMENT OF ALL

Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness.

DR. BRENAN has made a specialty in the treatment of the following diseases. Catarrh Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand and the patient need not fear the result.

DR. BRENAN will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR has studied in the best Medical schools in Europe and three years in the Jefferson Medical College at Philadelphia as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION

Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients. Look out for them they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR PAUL M BRENAN the *Medical Lecturer*, and read his sign on his door.

New System of Wagon Brakes.
TRULLINGER PATENT BRAKE.
NO SHOES TO WEAR OUT TIRES
No Brake Bar used. Will hold a Wagon anywhere from Backing or going Forward.
THIS NEW BRAKE NOW BEING INTRODUCED by the inventor J C Trullinger is a combination of friction gear applied to the hub of a wagon. It is simple and light yet has more strength and durability than any other wagon brake now in use. It is so attached to the wagon that it is out of the way of the gearing yet always reliable and at hand when required. Any teamster or mechanic can see at once its utility and effective force to hold a load on a down grade or to prevent horse backing when required. The Brake is made entirely of iron no wooden part being necessary as no brake bar is used hence it does not carry mud and is not affected by wet and muddy or icy roads.
We invite critical examination as we believe its merits can be demonstrated to any party who uses or understands a wagon brake.

GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

A General Strike near at Hand—Workmen Opposed.

POTTSVILLE Aug 11—The knights of labor last week considered again the subject of the general strike determined upon to take place early in August. Employes of the Philadelphia & Reading Coal and Iron Co were almost unanimously opposed to a strike. They stated that while wages were not such as they thought they ought to have they had been gradually increased under the plan of making them participants in the advance of tolls that they had assurances of steady work the balance of the year and preferred to let well enough alone. The majority were of the opinion and voted against a strike.

The Potter Investigation.

NEW YORK Aug 11—The Potter investigating committee resumed its session this morning but in the absence of several members no witnesses were examined.

Gen Butler asked that Stanley Matthews be summoned.

Mr Potter—The senator had been summoned Saturday and he replied an important engagement at Newport would prevent him attending, as whatever he intended to say he deemed of no consequence to the committee. From this reply Mr Potter said he inferred Senator Matthews did not mean to respond to the summons.

General Butler remarked that if Matthews' answer meant that he would not attend or obey the summons of the house of representatives the sooner the issue was made the better for the house and senate so that the powers of both can be determined. If the house has not power to compel the attendance of witnesses, then the investigation is useless and subject to suspicion. He did not know what credit to give certain newspaper articles he had seen but if they were true Matthews had been testifying to newspaper reporters. He tells to them as much as he pleases and we want him here to tell as much as the committee pleases. He, therefore, moved that it be entered on the record that Matthews refuses to appear before the committee and that the same be reported to the house for their action in the matter.

Potter remarked that he would entertain Butler's motion but thought it better to await the presence of Hiscock and Stenger before voting on it. He therefore adjourned the committee until 11 o'clock to morrow. The committee then went into executive session.

Yellow Fever.

GRENADA Miss Aug 11—One hundred cases of yellow fever here up to 12 M. Ten deaths within the last 24 hours.

NEW ORLEANS Aug 12—New cases, 31; deaths 12.

Among the recent deaths from yellow fever is Rev Mr Davidson Jewish rabbi aged 39.

The board of health continue the carbolization and point to the slow increase of disease as the result. The Howard association advertise for 15 experienced nurses to go to Grenada Miss. It is understood physicians will also be sent.

VICKSBURG Aug 12.—A general rush out of town yesterday and to-day was caused by the fatal cases of fever which originated here. The alarm continues. Three other cases were reported at the city hospital, but no new cases to day.

Latest advices from Grenada state the total number of cases and over 112 deaths. There is some excitement here over the news. Every exertion possible is being made by the board of health.

Counsel for the Government.

NEW YORK Aug 12—Bristow has been appointed by the president as chief counsel for the government in the South Carolina cases. He will have entire charge of the interests of the government with power to select assistants as he may prefer.

Death of a Manslayer.

A Paris dispatch says Lewis Baker, who shot Bill Poole in New York in 1855, died in that city. Baker lived in Paris under the assumed name of Jackson.

Unlucky Sabbath-Breakers.

BUFFALO N Y, Aug 12—A party of three who went from this city to Lancaster yesterday were arrested for violation of the Sunday laws. On the way to the village a shotgun was accidentally discharged, mortally wounding one of the party and a constable.

Strikers taken Back.

CHICAGO Aug 12—One firm took back 6[illegible] of the striking shoemakers this morning at their own rates. This fact caused considerable elation among the strikers, but they say they don't care a fig for the proposed engagement of Chinamen. They have little faith in it.

The Victorious Crew.

NEW YORK Aug 12—The Columbia College crew has declined the public reception tendered by the city authorities.

Another Victim of the Storm.

MERIDEN Conn Aug 12—Freddie Mittlewood aged 14 one of the injured at Wallingford died at noon to-day, making 30 dead thus far.

Relief of Tornado Sufferers.

MERIDEN Conn Aug 11—A committee of citizens of Wallingford was appointed this evening to receive and disburse all contributions for aid of sufferers by the recent tornado. Stamford has sent $200 and one church in New Britain yesterday contributed $400.

NEW YORK Aug 12—The New Haven and Hartford railroad has ordered its agents to sell tickets to Wallingford and return at half fare Wednesday next the proceeds to be given in aid of sufferers.

Strikers Put Out.

MILWAUKEE Aug 12—The Milwaukee and St Paul R R Co informed their workmen who struck Saturday but at a subsequent meeting agreed to continue work under protest against reduced prices that they would not employ them until a mutual understanding was reached. The men had a conference with the general manager and will have another to morrow. Meanwhile 350 or 400 men are idle. The company claim that only men receiving over $2 50 per day are affected the reduction [illegible] decreasing their wages $2 [illegible] monthly and is merely an equalization of salaries. The trouble is caused by a few agitators who receive wages. They believe the men [illegible] proposing to work this morning contemplated a general strike on the 15th. This is denied by the workmen. It is hoped and believed the difficulty will be amicably adjusted to morrow.

Missouri a Defaulter.

ST LOUIS Aug 12. The *Evening Post* publishes a [illegible] purporting to be entirely [illegible] authority [illegible] not given which [illegible] interest on state bonds was not paid by the state. The statement further says [illegible] to this deficit in interest money the state treasurer has during his whole [illegible] office carried among his assets a worthless [illegible] on the Mastin bank of Kansas [illegible] $256 000 which was accepted by the [illegible] examining committee as cash [illegible] in the state treasury of [illegible] addition to the [illegible] the National Bank [illegible] Missouri and the sum [illegible] to be deposited [illegible] the Mastin bank. These [illegible] [illegible] [illegible] the state treasury and that the [illegible] state has in the treasurer's [illegible] worthless [illegible] $4[illegible] of Kansas City Water Works [illegible]

A Long Walk.

[illegible] Daniel W Reed of Mal[illegible] [illegible] the head of State street [illegible] San Francisco. He expects to [illegible] 150 days.

Salem [illegible] The necessity of a bridge across the Willamette river at Salem is becoming [illegible] more apparent from day to day. The construction of a bridge would insure [illegible] two narrow gauge railroads in the next two years. Let us have the bridge.
